## HOW TO MEASURE....

We recommend that you do not measure yourself. Measurements will be more accurate if someone else measures you!

**HAT SIZE** around your head just above the eyebrows

**CHEST** underneath your arms at the widest point

**SLEEVE** the outside of the sleeve. Normally 22" to 27"

**STOMACH/NAVEL** the widest part of the navel for men; the narrowest for women

**LEDGE OF HIP BONE** where you would wear a belt w/ a pair of pants (men)

**HIPS** the widest part around the seat

**LENGTH** from the ledge of the hip bone to middle of knee while standing straight \*we add 2" to this measurement

**HEIGHT OF HOSE** from the floor at the heel to where you want the top of the sock to come. We'll add the material for the cuff

**CALF** at the widest

**LENGTH OF FOOT** in inches from the heel to the biggest toe
